THE SECRET

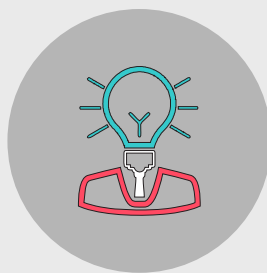

In June 2004, when I have attended a memory seminar, the speaker told us about one of his students from Lucknow, who has memorized the complete oxford English – English dictionary even with page number and showed us press clipping with the title “Lucknow Lad is a Walking Dictionary”. He told us about the secret behind memorizing the complete oxford dictionary. The secret which he told us was AIR Method.

This AIR contains three most powerful laws of memory power system, which can help you to memorize 1500 high frequency words in just 30 without forgetting. The acronym AIR means Association, Imagination and Ridiculous Thinking.

ASSOCIATION

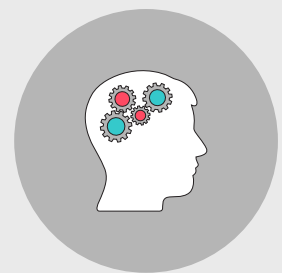

Association says try to connect new information with an old information already exist in our brain.

IMAGINATION

Imagination or visualization is the backbone of the memory power system. The reason is that, the nerves that go from our eyes to brain are 20 times powerful than the nerves that go from ear to brain.

That's why we forget the complex vocabulary words, formulae, equations and remembers movies for a longer time duration, may be up to 1 month, 6 month or may be up to 1 year.

RIDICULOUS THINKING

Our brain remembers information which is silly, funny, odd, unique, distinctive, outstanding and scary. So, try to make your imagination very much odd and funny.

NOW, WE WILL APPLY ALL THESE THREE RULES
IN MEMORIZING FIVE HIGH FREQUENCY VOCABULARY WORDS
WHICH APPEARS ALMOST IN ALL THE COMPETITIVE EXAMINATIONS.

EXAMPLE 1

Word: Capacious
Meaning: Big, Wide, Roomy.
Keyword: **Cap**acious (Cap)
Memory Link: Eva is wearing a big cap.

EXAMPLE 2

Word: Copious
Meaning: Large in quantity or number
Keyword: **Copious** (Copies)
Memory Link: Large numbers of copies are coming out from printer.

EXAMPLE 3

Word: Cynosure
Meaning: Centre of Attraction
Keyword: **Cynosure** (Dinosaur)
Memory Link: In the movie Jurassic World, the dinosaur were the centre of attraction.

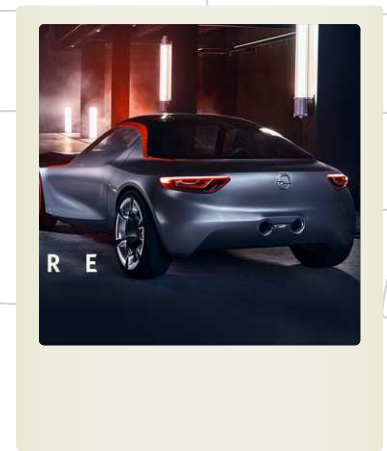

EXAMPLE 4

Word: Immutable
Meaning: Stable, Difficult to move or change.
